

LS Mtron visit 8<sup>th</sup> International Rechargeable Battery Expo Battery Japan exhibition

Held inside **World Smart Energy Week 2017**

## 8th Int'l Rechargeable Battery Expo **BATTERY JAPAN**

LS Mtron have visited "Battery Japan 2017" exhibition held in Tokyo big sight during 1<sup>st</sup> to 3<sup>rd</sup> of March, 2017.

Battery Japan is World's Largest-scale international exhibition showcasing various components, materials, facilities, finished rechargeable energy storages for rechargeable battery & Ultracapacitor R&D and manufacturing. The exhibition was held together with FC EXPO 2018, PV EXPO 2018, International smart grid EXPO, WIND EXPO 2018 and others.

- Dates : February 28 (Wed) - March 2 (Fri), 2018
- Venue : Tokyo Big Sight, Japan
- Official website : <http://batteryjapan.jp/en/Home>
- Exhibition outline : World's Largest-scale international exhibition showcasing various components, materials, facilities, finished rechargeable energy storage for rechargeable battery & Ultracapacitor R&D and manufacturing

LS Mtron has reviewed market trend & state of art materials & facilities of rechargeable battery & Ultracapacitor through "Battery Japan 2017". We believe our exhibition experience will be a chance to leapfrog our new market opportunity & innovative product development.

About 280 companies have attended the Battery Japan 2017 which is reduced from previous year. But the number material & facilities companies have increased and we could experience state of art facility trends.

LS Mtron will adopt these new technologies to develop & produce better goods. This will lead us to provide leading solution to our customer.
